

RIBO Low A - Sizing Guide (US Letter)

1. Print this page on US letter paper (8.5"x11"). Make certain scale is at 100%.
2. Cut out sizing strips.
3. Assemble strips into rings – align so arrows meet and overlap area is hidden, tape together.
4. Starting with the smallest, place sizing rings into bassoon bell to test for fit.
The largest size that can fit the bell will be the best size of RIBO Low A extension to order.
5. If the smallest size does not fit, or the largest size is quite loose, custom sizes are possible, inquire at support@subcontrabassoon.com
